# Zoom Meeting Orientation

---

# Business Resource Group Updates

---

Nam Nguyen, WIN Chair

# Ice Breaker

---

Kim Sauer, WIN Vice-Chair

Please share your name and a line about your experience traveling for the first time overseas or someplace totally new. Where did you go? How was your experience?

# Introduction: Mustafa Mohamedali

---

Mustafa is a first generation American, a native of Kenya with Indian ancestry. He is a licensed professional engineer and certified project manager and works as a Research Manager for the Washington State Department of Transportation (WSDOT). He has lived and worked in six countries and travelled 27 on four continents before settling in Washington in 2000. He has served on the board the Project Management Institute (PMI), the American Society of Civil Engineers (ASCE), Interfaith Works, and is currently on the board of the Islamic Center of Olympia responsible for outreach and promoting inter-cultural/interfaith understanding. Mustafa was also recently appointed to the Governor's Commission on Judicial Conduct (CJC). Through his passion he has been able to find common ground in values of people polarized through years of distrust and ignorance and has been able to achieve real and tangible results. He is a polyglot--fluent in English, Gujarati, Swahili, and Hindi/Urdu, and can get by in Arabic and a couple more.
